

## GO-2 FUZE

NSN: 1390-50-0012419

The GO-2 fuze is intended for use on HE-FRAG grenades OFG-7, OG-9M, OG-9MZ for firing respectively from the RPG-7V, SPG-9M and 2A28 gun, mounted on the BMP-1, and serves to ensure the safety during handling and firing and to detonate the warhead upon impact with a target. The fuze is nose, impact with instantaneous and inertial action, non-boresafe type.

### CHARACTERISTICS

Type	Mechanical
Weight, kg	0,204
Arming distance, m	2,5÷ 30
Safe drop height, m	3
Fixing thread	SP 36,18x10 turns in 1"
Safe operational temperature range, °C	-40...50
