

**ZV-7L
PYRODELAY ELEMENT**

NSN : 1390-50-001-5866

The ZV-7L pyrodelay element is designed for transmitting a pulse for initiating the grenade's rocket motor at a safe distance from the RPG-7V grenade launcher's muzzle end face.

CHARACTERISTICS

Weight of product, g	30
Diameter of pellet, mm	Ø23,50
Diameter of body, mm	Ø10
Height, mm	56
Fixing thread	M12x1
Delay element burn time, s	0,120-0,170
Safe operational temperature range, °C	-40...50
